

SunAdvantage™

Get ready for a new design – we updated our Plan Sponsor admin kits

Your clients deserve the best – so we made it easier for sponsors to administer their benefits plan by updating the look and delivery of our Plan Sponsor administration kits for SunAdvantage clients. What's changing?

No more bulky box

We streamlined the entire contents – now it all fits neatly into a stylish and newly designed package.

A refreshing new look

The new package design provides consistent brand messaging which gives your clients a consistent visual experience.

Keeping it green

We have listened and understand sustainability is important to you and your clients. Now plan sponsors can visit our website to print off only the forms they need, when they need them. Also, by printing forms only when needed, clients will always use the most up to date version.

Say hello to:

- **The Quick Reference Guide**
The My Coverage guide Welcome and Enrolment envelopes now include the Quick Reference Guide which provides members a summary of the most commonly referenced benefit information. Members can view their full Benefit Booklet by registering on line at mysunlife.ca
- **Peel Off Drug Card included in the My Coverage Guide**
In the July issue of [Focus Update](#) we introduced the new **my coverage guide**. The new guides include peel off cards (travel, drug or access where applicable). The peel off card replaces the plastic drug card. If a member has dependents and need additional cards for their use, they can print extra copies by visiting mysunlife.ca.
