SLF will give notice of redemption at least 30 days but not more than 60 days before the date fixed for redemption. Where less than all of the Debentures are to be redeemed, the Debentures to be redeemed will be selected by lot by the Trustee or redeemed on a proportionate basis according to the principal amount of Debentures registered in the respective name of each holder of Debentures or in such other manner as the Trustee may consider equitable.

“Canada Yield Price” means a price equal to the price of the Debentures, calculated on the Business Day preceding the day on which the redemption is authorized, to provide an annual yield from the date fixed for redemption to but excluding July 2, 2019 equal to the Government of Canada Yield, plus 57.5 basis points.

“Government of Canada Yield” means the annual yield from the date fixed for redemption to but excluding July 2, 2019 assuming semi-annual compounding, which an issue of non-callable Government of Canada bonds would carry on the remaining term to but excluding July 2, 2019. The Government of Canada Yield shall be calculated by two independent Canadian investment dealers selected by the Trustee and approved by SLF.

Rank: The Debentures will be direct, unsecured obligations of SLF constituting senior indebtedness for the purpose of the Insurance Companies Act (Canada), ranking equally and rateably with all other senior unsecured indebtedness of SLF from time to time issued and outstanding and ranking prior to subordinated indebtedness of SLF. The Debentures will rank among themselves equally and rateably without preference or priority.

Form of Debentures: Global certificate registered in the name of “CDS & Co.”

CUSIP No.: 86682ZAC0.

Credit Ratings: The Debentures have been rated by DBRS Limited (“**DBRS**”) and Standard & Poor’s, a division of The McGraw Hill Companies Inc. (“**S&P**”). A credit rating generally provides an indication of the creditworthiness of the borrower or the risk that the borrower will not fulfill its obligations in a timely manner to pay both interest and principal on the indebtedness that is the subject of the rating. Rating categories range from highest credit quality (generally “AAA”) to very highly speculative (generally “C”). The Debentures have been rated AA(low) by DBRS and A+ by S&P.

For DBRS, a credit rating of “AA” is an indication of superior credit quality with the subcategory “low” meaning that SLF is at the low end of the category range. For S&P, a rating of “A” is an indication that the borrower’s capacity to meet its financial commitments on its obligations is strong with the plus “+” sign showing relative standing within the rating category.

Credit ratings are intended to provide investors with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of any particular securities for any particular investor. The credit rating assigned to the Debentures is not a recommendation to purchase, hold or sell the Debentures. Prospective investors should consult the relevant rating organization

with respect to the interpretation and implications of the ratings. Ratings may be revised or withdrawn at any time by the respective rating organization.

ELIGIBILITY FOR INVESTMENT

In the opinion of Torys LLP, counsel to SLF, and McCarthy Tétrault LLP, counsel to the Agents, the Debentures offered hereby, if issued on the date of this Pricing Supplement, would be, on such date, qualified investments under the Income Tax Act (Canada) (the “Tax Act”) for a trust governed by a registered retirement savings plan, a registered retirement income fund, a registered education savings plan, a registered disability savings plan, a tax-free savings account or a deferred profit sharing plan, other than a deferred profit sharing plan to which contributions are made by SLF, or by an employer with which SLF does not deal at arm’s length within the meaning of the Tax Act.

The Debentures, if issued on the date of this Pricing Supplement, would not be, on such date, a “prohibited investment” for a trust governed by a tax-free savings account provided the holder of the tax-free savings account deals at arm’s length with SLF for purposes of the Tax Act and does not have a significant interest (within the meaning of the Tax Act) in SLF or in any person or partnership with which SLF does not deal at arm’s length for purposes of the Tax Act. Prospective purchasers should consult and rely on their own tax advisors.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP, counsel to SLF, and McCarthy Tétrault LLP, counsel to the Agents, the following is, at the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to a holder of Debentures (a “Holder”) who acquires Debentures pursuant to this offering and who, at all relevant times, for purposes of the Tax Act, is resident in Canada, holds the Debentures as capital property, deals with SLF at arm’s length and is not affiliated with SLF. Generally, the Debentures will be considered capital property to a Holder provided that the Holder does not hold the Debentures in the course of carrying on a business of trading or dealing in securities and has not acquired them in one or more transactions considered to be an adventure in the nature of trade. Certain Holders who are resident in Canada whose Debentures might not otherwise qualify as capital property may be entitled to obtain such qualification in certain circumstances by making an irrevocable election permitted by subsection 39(4) of the Tax Act.

This summary is not applicable to a Holder that is a “financial institution” (as defined in the Tax Act for purposes of the mark-to-market rules), a Holder an interest in which is a “tax shelter investment” (as defined in the Tax Act) or a Holder to whom the “functional currency” reporting rules in the Tax Act apply. Such Holders should consult their own tax advisors having regard to their particular circumstances.

This summary is based upon the facts set out in the Prospectus and this Pricing Supplement, the current provisions of the Tax Act and the regulations thereunder (the “Regulations”) in force at the date of this pricing supplement, all specific proposals to amend the Tax Act and Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof and counsel’s understanding of the current administrative policies and assessment practices of the Canada Revenue Agency (the “CRA”) published in writing by it prior to the date hereof. There can be no assurance that the proposed amendments will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes of law or practice, whether by judicial, governmental or legislative decision or action or changes in the administration policies or assessment practices of the CRA, nor does it take into account tax legislation or considerations of any province or foreign jurisdiction. The provisions of provincial income tax legislation vary from province to province in Canada and in some cases differ from federal income tax legislation.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any particular Holder are made. Accordingly, prospective purchasers should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring, holding and disposing of Debentures, including the application and effect of the income and other tax laws of any country, province, territory, state or local tax authority.

A Holder that is a corporation, partnership, unit trust or trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year any interest or amount that is considered for the purposes of the Tax Act to be interest on a Debenture that accrues to the Holder to the end of that taxation year or

becomes receivable or is received by the Holder before the end of that taxation year, except to the extent that such interest (or amount considered to be interest) was otherwise included in the Holder's income for a preceding taxation year.

Any other Holder, including an individual and trusts of which neither a corporation or a partnership is a beneficiary, will be required to include in income for a taxation year any amount on a Debenture received or receivable (depending upon the method regularly followed by the Holder in computing income) by such Holder as interest in that year on a Debenture, except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by SLF to a Holder because of the redemption by it of a Debenture before maturity thereof will generally be deemed to be interest received at that time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of, the interest that would have been paid or payable by SLF on the Debenture for a taxation year ending after the redemption and will be required to be included in computing the Holder's income, as described above.

On a disposition or deemed disposition of a Debenture, whether on maturity, redemption, purchase for cancellation or otherwise, a Holder will generally be required to include in income the amount of interest (including amounts considered to be interest) accrued on the Debenture from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year. In general, a disposition or deemed disposition of a Debenture will give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any accrued interest and any other amount included in computing income as interest and any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Debenture to the Holder immediately before the disposition.

One-half of the amount of any capital gain (a "taxable capital gain") realized by a Holder in a taxation year generally must be included in the Holder's income for that year, and one-half of the amount of any capital loss (an "allowable capital loss") realized by a Holder in a taxation year must be deducted from taxable capital gains realized by the Holder in that year. Allowable capital losses in excess of taxable capital gains may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realized in such years to the extent and under the circumstances described in the Tax Act. Capital gains realized by an individual or a trust (other than certain specified trusts) may give rise to a liability for alternative minimum tax under the Tax Act.

A Holder that is a "Canadian controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6²/₃% on certain investment income, including amounts of interest and taxable capital gains.
