

Sun Life MPF

Basic/Comprehensive Scheme

Life's brighter under the sun

IMPORTANT NOTES

- Sun Life MPF Basic Scheme/Sun Life MPF Comprehensive Scheme (the “Scheme”) each is a mandatory provident fund scheme registered with the Mandatory Provident Fund Schemes Authority. Registration does not imply recommendation.
- You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of constituent funds, you are in doubt as to whether a certain constituent fund or the default investment strategy is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and make investment choices most suitable for you taking into account your circumstances.
- In the event that you do not make any investment choices, please be reminded that your contributions made and/or benefits transferred into the Scheme will unless otherwise provided in the Explanatory Memorandum be invested in accordance with the default investment strategy which may not necessarily be suitable for you.
- The Sun Life MPF Basic Scheme Capital Guaranteed Portfolio / Sun Life MPF Comprehensive Scheme Capital Guaranteed Portfolio under the above Scheme invests its assets solely in an Approved Pooled Investment Fund in the form of insurance policy provided by FWD Life Insurance Company (Bermuda) Limited (“FWD Life”). The guarantee is also given by FWD Life. Your investments in the Sun Life MPF Basic Scheme Capital Guaranteed Portfolio / Sun Life MPF Comprehensive Scheme Capital Guaranteed Portfolio, if any, are therefore subject to the credit risk of FWD Life. The guarantee is subject to qualifying conditions. Please refer to paragraphs 27 through 37 of Part II of the Explanatory Memorandum for details of the credit risk, guarantee features and guarantee conditions.
- You should not invest based on this brochure alone. You should read the Explanatory Memorandum for further details and risks involved.
- For further details including the features of the Scheme and each constituent fund, the investment objectives of each constituent fund and risks involved, please refer to the details in the Explanatory Memorandum of the Scheme (as amended from time to time). If you are in doubt about the meaning or effect of the contents of the Explanatory Memorandum or any addendum thereto, you should seek professional advice.
- Investment involves risk and not all constituent funds available under the Scheme would be suitable for everyone. There is no assurance on investment returns and your investments/accrued benefits may suffer significant losses.

What is MPF?

MPF stands for Mandatory Provident Fund

Hong Kong has a rapidly aging population. Before the implementation of the MPF system, most of our workforce did not have any form of retirement protection. Recognizing the need to provide for the long term financial security of our workforce, the Hong Kong Government implemented the MPF system in December 2000.

Under the MPF system, members of the workforce aged between 18 and 65 are required to join an MPF scheme. MPF scheme members include full-time and part-time employees who have been employed for 60 days or more, as well as self-employed persons.

Various investment options for your different investment needs

The Scheme offers constituent funds listed below (the “Constituent Fund”).

| Constituent Funds* | Risk Level** | Sun Life MPF Basic Scheme | Sun Life MPF Comprehensive Scheme |
|---------------------------------|--------------|---------------------------|-----------------------------------|
| MPF Conservative Portfolio | Low | ✓ | ✓ |
| Capital Guaranteed Portfolio | Low | ✓ | ✓ |
| Age 65 Plus Portfolio | Low | ✓ | ✓ |
| Stable Portfolio | Medium | N/A | ✓ |
| Stable Growth Portfolio | Medium | ✓ | ✓ |
| Core Accumulation Portfolio | Medium | ✓ | ✓ |
| Balanced Growth Portfolio | High | ✓ | ✓ |
| Growth Portfolio | High | N/A | ✓ |
| International Equity Portfolio | High | ✓ | ✓ |
| US & Hong Kong Equity Portfolio | High | ✓ | ✓ |
| Asian Equity Portfolio | High | N/A | ✓ |
| Hong Kong Equity Portfolio | High | ✓ | ✓ |

* Except for MPF Conservative Portfolio (which invests directly in permissible investments), the assets of the Constituent Funds are primarily invested in approved pooled investment funds (“APIFs”) (which are approved by the Mandatory Provident Fund Schemes Authority (“MPFA”) and authorised by the Securities and Futures Commission (“SFC”) and approved index-tracking collective investment schemes (“ITCISs”) (which are approved by the MPFA). Approval by the Mandatory Provident Fund Schemes Authority do not imply official recommendation. Authorisation by the Securities and Futures Commission do not imply official recommendation.

** The Constituent Funds are classified into three categories in terms of risk level, namely low, medium or high risk. The risk level is an illustration of the amount of risks associated with the relevant Constituent Fund by reference to the type of investments made by the underlying APIF(s) and the underlying approved ITCISs. The risk level is for reference only and not an indication of the past or future performance of the Constituent Fund. The risk level is solely assessed by the Trustee on the assumption that equities are riskier than bonds, which in turn are riskier than cash. The risk rating will be reviewed at least annually according to the prevailing market circumstances. The actual risks associated with each Constituent Fund may differ from the projected risk level. Low risk investment portfolios are designed for clients seeking low investment return with low risk exposure. Medium risk investment portfolios are designed for clients seeking medium investment return with medium risk exposure. High risk investment portfolios are designed for clients seeking high investment return with high risk exposure.

MPF Conservative Portfolio

- Aims to achieve returns, after expenses, which match or exceed Hong Kong Dollar savings rate*
- Invests its assets directly in permissible investments by Schroders
- Investment involves risk. MPF Conservative Portfolio does not guarantee the repayment of capital

* Please note that the interest earned may be less than inflation

Capital Guaranteed Portfolio

- With capital guarantee - capital is guaranteed at the end of every 5-year period or when the member reaches the age of 65+
- Aims to achieve stable long term returns slightly in excess of Hong Kong inflation
- Assets will be invested in a single APIF in the form of insurance policy managed by FWD Life which in turn invests in an APIF in the form of a unit trust (i.e. the Schroder IPF Global Balanced Fund of Schroder Institutional Pooled Funds) managed by Schroder Investment Management (Hong Kong) Limited. Such unit trust shall in turn invest in the underlying investments
- The guarantor is FWD Life. Please refer to the Explanatory Memorandum for details

* To qualify for the guarantee, a member must hold beneficial interests in the Capital Guaranteed Portfolio at all times in a 5-year period of continuous investment. The guarantee will also apply over a shorter period if the member reaches the age of 65. The accrued benefits at the end of the guaranteed period will not be less than, in respect of each member, the member's accrued benefits in the portfolio at the beginning of the 5-year period, plus the contributions made to the portfolio during the 5-year period, less the withdrawal amounts paid by the portfolio during the 5-year period, if any. It should be noted that if the member is unable to satisfy the qualifying conditions as stated above, the accrued benefits are fully exposed to fluctuations in the value of the fund's assets. Please also refer to paragraphs 27 through 37 of Part II of the Explanatory Memorandum for details of the guarantee features and conditions

Default Investment Strategy (DIS)

The Mandatory Provident Fund Schemes (Amendment) Bill 2015 has been passed by the Legislative Council which provides for the introduction of a Default Investment Strategy (DIS) and requires each Mandatory Provident Fund (MPF) scheme to provide the DIS. The DIS is launched on 1 April, 2017.

DIS is a highly standardized and fee-controlled MPF investment strategy designed to be consistent with the objective of building up long term retirement savings. If scheme members do not make any choices for their MPF investments, their accrued benefits and future investments (meaning future contributions and accrued benefits transferred from another MPF scheme) will be invested according to the DIS of their respective scheme. Scheme members can also choose to opt for the DIS.

Key features of the DIS

Made up of two portfolios

The DIS is made up of two mixed asset portfolios, namely the Core Accumulation Portfolio and the Age 65 Plus Portfolio ("DIS Funds"). The DIS Funds will invest in a globally diversified manner. The Core Accumulation Portfolio will invest more in higher risk assets (e.g. global equities), while the Age 65 Plus Portfolio will invest more in lower risk assets (e.g. global bonds). The investment ratios of these two DIS Funds are shown in the diagram below :

Members should note that the two DIS Funds have to follow the prescribed allocation between higher risk assets and lower risk assets at all times subject to a tolerance level of + or - 5%.

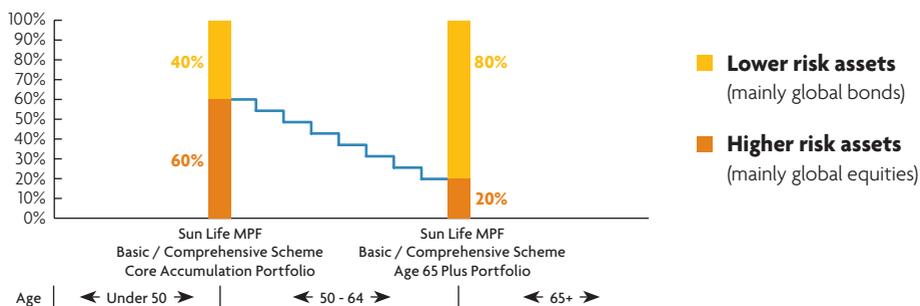

Investment principles

Age-based de-risking

As the scheme member approaches retirement age, the investment strategies will be adjusted automatically by reducing the investment in higher risk assets accordingly :

- Aged below 50: all accrued benefits and future investments will be invested in the Core Accumulation Portfolio.
- Aged between 50 and 64: all accrued benefits and future investments in the Core Accumulation Portfolio will be gradually switched to the Age 65 Plus Portfolio each year, so that the ratio of higher risk assets in DIS will fall.
- Aged 64 and above: all accrued benefits and future investments will be invested in the Age 65 Plus Portfolio.

Asset Allocation between the DIS Funds according to the DIS

Note: The exact proportion of the portfolios in higher/lower risk assets at any point of time may deviate from the target glide path due to market fluctuations

DIS De-risking Table

| Age | Sun Life MPF Basic / Comprehensive Scheme Core Accumulation Portfolio ("CAP") | Sun Life MPF Basic / Comprehensive Scheme Age 65 Plus Portfolio ("A65P") |
|--------------|---|--|
| Below 50 | 100.0% | 0.0% |
| 50 | 93.3% | 6.7% |
| 51 | 86.7% | 13.3% |
| 52 | 80.0% | 20.0% |
| 53 | 73.3% | 26.7% |
| 54 | 66.7% | 33.3% |
| 55 | 60.0% | 40.0% |
| 56 | 53.3% | 46.7% |
| 57 | 46.7% | 53.3% |
| 58 | 40.0% | 60.0% |
| 59 | 33.3% | 66.7% |
| 60 | 26.7% | 73.3% |
| 61 | 20.0% | 80.0% |
| 62 | 13.3% | 86.7% |
| 63 | 6.7% | 93.3% |
| 64 and above | 0.0% | 100.0% |

Note: The above allocation between the CAP and A65P is made at the point of annual de-risking and the proportion of the CAP and A65P in the DIS portfolio may vary during the year due to market fluctuations.

The above de-risking is to be carried out each year on the relevant member's birthday. If a member's birthday falls on a day which is not a dealing day, the de-risking process will be conducted in the next available dealing day.

Fee controls

The aggregate of the payments for services of DIS Funds ("service fees") must not, in a single day, exceed a daily rate of 0.75% per annum of the net asset value of each of the DIS Funds divided by the number of days in the year. The out-of-pocket expenses incurred by the trustee on a recurrent basis in the discharge of the trustee's duties to provide services in relation to the DIS Funds, shall not in a single year exceed 0.2% of the net asset value of each of the DIS Funds.

The services fees covered within the fee cap include all fees for services provided by trustees, administrators, investment managers, custodians, sponsors and promoters (if any), as well as similar fees chargeable to the underlying investment funds.
