2.1 **Increase/Decrease in Net Assets Value Per Share (NAVPS)** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding plus the total number of units outstanding due to deposit for future subscriptions (DFFS) and for conversion to shares, if any, as of the end of the reporting day. Accounting Policies for Financial Assets at Fair Value through Profit or Loss

Initial recognition

Financial assets are recognized in the Company's financial statements when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value. Transaction costs are included in the initial measurement of all financial assets, except for investments classified as at FVTPL. All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or

sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification and subsequent measurement

Financial assets are classified into the following specified categories: financial assets at FVTPL, held-to-maturity (HTM) investments, available-for-sale (AFS) financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

The Company's financial assets as at December 31, 2015 and 2014 consist of financial assets at FVTPL, held-to-maturity investments and loans and receivables.

Financial assets at FVTPL

The Company classifies financial assets as at FVTPL when the financial asset is either held for trading or designated as such upon initial recognition.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- on initial recognition, it is a part of an identified portfolio of financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and it is permitted that the entire combined contract to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any resulting gain or loss recognized in profit or loss.

The Company's financial assets classified under this category include investments in special savings deposits and Investments in Unit Investment Trust Fund (UITF).

3. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure. There have been no changes in and/or any disagreement with accountants on any accounting and financial disclosures and/or on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure.

b. **Market Information.** Being an investment company that is not listed with the PSE and required to follow rules specific to mutual funds, shares are distributed through its principal distributor, SLAMCI.
